

Pay less for medicine and care, with or without insurance.

Free

Yours to keep · the card never expires

Share it with family

Half of employees often avoid seeking medical care because of out-of-pocket costs ([MetLife, 2026](#)). You don't have to. Your free Refresh prescription card and NeedyMeds can lower what you pay, whether or not you're on Goodwill's health plan.

- ✓ Save up to 80%
- ✓ More than 65,000 pharmacies, including all major chains
- ✓ Free, no fees or registration
- ✓ Use it as often as you need
- ✓ Never expires
- ✓ Share it with friends and family

Have insurance? Use the card instead of insurance when the card price is lower than your copay, or when a drug isn't covered. You can't combine the two on the same purchase.

More ways NeedyMeds helps

Free or low-cost medical care

Affordable dental

Mental health support

Help paying for medications

Community clinics

"Find low-cost prescriptions" in the app compares pharmacy prices nearby.

HOW TO START

- 1 Open Refresh.

- 2 Show the card at the pharmacy counter.

- 3 Ask for the lower price: card or insurance.

Find it in Refresh
