

REACH, A BRAND OF REFRESH · PREPARED FOR MIAMI-DADE COUNTY PUBLIC SCHOOLS

One of the five systems

How REACH can serve as one of the family-facing or employee-facing systems the 2026-2031 Strategic Plan commits to improving by 2029, for the families and staff who rarely sit at a computer.

Brief · about a 5-minute read · September 2026

What is in here. A short note, the commitments in the Strategic Plan that REACH speaks to, where it could fit, the features that matter most for the District, and a way to start. There is also a **PDF of this document**.

SECTION 1

A note

Hello,

Congratulations on the new 2026-2031 Strategic Plan. One commitment in it stood out to us: improving five family-facing and five employee-facing systems by 2029, so that at least 80% of users rate them 9 or 10 and end-to-end processing time drops by 30%.

I lead the public-serving division of Refresh. Our REACH platform is a white-labeled mobile app for the people who rarely sit at a computer: families, and non-instructional staff like transportation, food service, and custodial teams. It connects the systems you already run and puts communication, benefits, forms, and community resources in one M-DCPS-branded place on the phone. It works in both directions: families and staff find what they need, the right resources reach them, and their feedback comes straight back to the District.

REACH could be one of those systems on either side. For families, it could be how they get school updates, complete forms, and find support like food, housing, and health coverage. For staff, it could be how they get onboarding, benefits, and wellness resources without logging in at a desk. In both cases the gains are the ones the Plan measures: fewer steps, faster completion, and a better experience.

Would you be open to a 20-minute conversation about which system might be the right place to start?

Adrian Gessen

SECTION 2

What the Strategic Plan commits to

The Plan separates strategy from business as usual and tracks a short set of objectives with key results. Three of them are where REACH can help.

OBJECTIVE 2 · KR 4	Improve five high-impact student, family, or community-facing systems or processes by July 2029, with at least 80% of users rating each 9 or 10 out of 10 and a 30% reduction in end-to-end processing time.
OBJECTIVE 3 · KR 3	Improve five high-impact employee-facing systems or processes by July 2029, against the same two targets.
OBJECTIVE 3 · KR 1-2	A positive and supportive workplace culture, measured separately for instructional and non-instructional employees, with a new Employee Wellbeing Indicator.

The context around them. The Plan describes an educational ecosystem of families, community organizations, government agencies, and industry partners, and it was built in English, Spanish, and Haitian Creole. A June 2026 Board item asks for plain-language, multilingual communication and individualized guidance for families at key decision points. REACH is built for exactly that kind of reach.

SECTION 3

Where REACH could fit

Each column is a candidate for one of the five systems. The District would choose one to start, measured against the Plan's own targets.

Family-facing system	Employee-facing system
COMMUNICATIONS · FORMS AND SURVEYS · COMMUNITY RESOURCES Family updates and guidance. School and District updates, reminders, and guidance at key milestones, on the channel each family answers, segmented by school and automatically translated into each family's language. Forms without paper. Consent, enrollment, and program forms completed on the phone, in order, and tracked, which is where end-to-end time falls.	BENEFITS ACCESS · HEALTH AND WELLNESS · REWARDS, RECOGNITION, AND PERKS Onboarding before day one. Benefits, forms, and team connections ready on the phone for new hires, personalized to role and location. Benefits people actually use. The right benefit surfaces at the right moment, without a desk login, for the staff who never open the portal. Wellbeing and recognition. Wellbeing content and peer recognition that reach non-instructional teams where they work.

Support that finds families. Food, housing, transportation, and health coverage, surfaced by where a family lives and what they need.

Alongside the Employee Portal, not instead of it. REACH connects to the systems the District already runs and serves the staff and families who are least likely to use a desktop portal.

SECTION 4

The features that matter most here

A subset of the full feature list, chosen for the Plan's commitments. The complete list is in **REACH Modules and Features**.

Serves **Team** **Community** **Both**

FEATURE	TYPICAL TODAY	WITH REACH	SERVES
THE PLATFORM IN EVERY MODULE			
White-labeled front door Your name, your look	Vendor-branded apps, one per tool	One branded home for everything your people use	Both
iOS, Android, mobile web, and web Every device	A desktop portal, or a different app for every vendor	Native iOS and Android apps plus mobile web and web, all carrying your name	Both
One layer over your systems Thousands of integrations	A portal of tiles, a separate login behind each	Connects HR, payroll, benefits, and the tools you already run into one experience, with no extra logins	Both
Segmentation and role-based access Right content, right person	One message and one menu for everyone	Each person sees what fits their role, location, and program For you: Segment by school, region, and role.	Both
Automated language translation In the language people use	English only, or translation by hand	Content is translated automatically into the language each person uses For you: Families receive updates in their own language, in line with the English, Spanish, and Haitian Creole engagement the Plan was built on.	Both

FEATURE	TYPICAL TODAY	WITH REACH	SERVES
Two-way by design Connects in both directions	Messages go out; little comes back	Organizations reach people, people reach help and each other, and feedback flows back to the organization For you: Families and staff can respond, not just receive, which is how a system earns a 9 or 10.	Both
Data analytics and reporting Beyond activity counts	Reports pulled by hand, after the fact	Real-time participation by team, location, or role, with nudges for the people going quiet For you: Participation and completion by school and region, to report against the Plan twice a year.	Both
Customer success and 24/7 support Help when it is needed	A ticket queue and a busy help desk	A dedicated customer success team, and admin support around the clock	Team
01 COMMUNICATIONS Start here			
Reach without email Channel matters	Email and flyers that deskless staff and families miss	Push, text, email, and in-app news feed, routed to the channel each person actually answers	Both
Chat Conversations in one place	Personal texts and group chats outside any system	Built-in chat, or a connection to the chat service already in use	Both
Scheduling and calendar Segmented scheduling	Paper calendars and phone trees	Full scheduling that works with any calendar: sign-ups, reminders, and check-ins for shifts, trainings, appointments, and classes For you: Reminders at key family milestones, such as school choice windows and enrollment deadlines.	Both
02 BENEFITS ACCESS Start here			
Benefits at the right moment Life events	A guide handed out once a year at open enrollment	Personalized, step-by-step journeys surface the right benefit at a life event: a new baby, a move, open enrollment	Team
AI benefits assistant Answers in plain language	Calling HR or the insurer to ask what is covered	A built-in AI assistant explains benefits and coverage in plain language, any time For you: Staff get answers about coverage without waiting on the phone or finding a desk.	Team
Benefits enrollment One flow	A separate enrollment site for every product	One enrollment flow across products and third-party systems	Team
Public benefits navigation Medicaid, SNAP, WIC	A referral list, one program at a time	Guides people to Medicaid, SNAP, WIC, and sliding-scale care. The agency and program still decide eligibility.	Community
03 COMMUNITY RESOURCES Start here			
Local help, searchable Free and reduced-cost services	A printed list that goes stale	Free and reduced-cost local services for food, housing, transportation, health, and work, searchable by where a person lives	Community
Help paying for medication Prescription assistance	Skipping or rationing medication because of cost	Programs that lower or cover the cost of prescriptions and medical care	Community

FEATURE	TYPICAL TODAY	WITH REACH	SERVES
Resources that find you Location and situation	Search it yourself, if you know to look	Surfaced on its own, by where a person is and what they are working on now	Community
04 HEALTH AND WELLNESS Start here			
Wellness on demand A 100+ hour content library	An assistance line on a breakroom poster	Fitness classes, yoga, HIIT, sleep stories, mindfulness, nutrition, and health management, plus your own content	Both
05 REWARDS, RECOGNITION, AND PERKS Start here			
Kudos and milestones Peer to peer or manager to team	Recognition that stays in an inbox	Peer and manager kudos, anniversaries, and milestones on the social feed, automated by tenure or role	Both
07 FORMS AND SURVEYS			
Digital forms Delivered in sequence	Paper intake and consent forms	Upload existing forms or build new ones, deliver them to the right groups automatically, and track each response For you: Where end-to-end processing time falls fastest: no paper, no re-entry, tracked automatically.	Both
Surveys and polls Feedback that comes back	One annual survey with low response	Snap polls and pulse surveys, fully automated, with visibility into who opened and who responded	Both
08 BASIC LEARNING MANAGEMENT			
Learning on mobile Short lessons	A desktop system few people open	Compliance training and continuing education people can finish on their phone	Team
Life skills and wellbeing For members and families	Workshops people cannot get to	Financial basics, parenting, health literacy, and mental wellbeing lessons For you: Financial basics connect to the Portrait of a Graduate, which includes making good choices with money.	Community
USE CASE: ONBOARDING BUILT FROM THE MODULES ABOVE			
Ready before day one Personalized	Binders and a first-week scramble	Benefits, forms, and team connections personalized to role, location, and life stage	Team
Welcome messaging Automated, personal	Ad hoc emails, if any	A manager welcome, team introductions, and benefits reminders at the right time	Team

"Typical today" describes the common shape of standalone tools and portals, not any named product. Features reflect Refresh platform capabilities published at refreshplatform.com and in REACH program materials as of September 2026. REACH is a software platform; it does not make eligibility decisions for any public benefit or program.

SECTION 5

A way to start

1

Choose one system

One family-facing or employee-facing process where the steps are many and the delays are known.

2

Set the baseline

Record today's end-to-end time and user rating, in the Plan's own terms.

3

Launch small

A set of schools or one region, with our customer success team handling setup and onboarding.

4

Measure and decide

Compare against the 80% and 30% targets, then choose whether to extend.
